Trivia Although it is written and composed by American musician James Horner, the film is set in 2023, as indicated by a banner at the beginning of the film, and the words "Titanic 2023" are written on the side of the ship. The film also takes place a few years after the sinking of the Titanic. Titanic is the first James Cameron film to have a working title. Before the release of the film, the movie was given two titles: Titanic and Last Goodbye (The Final Goodbye). The former was chosen as a reference to the film's theme of a ship's end. When Titanic was announced as a theatrical release in December 1996, the title was changed to Titanic, and this became the title for the movie's release on video. However, when the movie was released on DVD, the title Last Goodbye was replaced with Titanic.
