AppleLoops is a collection of Apple instruments, loops and sounds all bundled in one convenient collection. Apple Audio Unit is a collection of tools and resources designed to help developers create advanced, royalty-free audio applications for the Mac OS. Apple GarageBand is a complete digital music creation and performing solution for the Mac. GarageBand includes sophisticated audio and MIDI recording, edit, mix, master and publish features, along with complete audio and MIDI sequencing, song and MIDI arrangement, multi-track recording, audio and MIDI effects and recording automation. The two-channel, 24-bit/96k high-quality GarageBand engine features higher sample rate, twice the amount of memory and twice the number of channels than its predecessor, the now discontinued Logic Express, and an enhanced user interface. GarageBand 3 is available as an upgrade for users of GarageBand and Logic Express. Apple Logic Pro X is a comprehensive and powerful audio and MIDI recording, editing, sequencing, mixing and mastering application. Using a combination of professional and amateur grade analog and digital audio and MIDI instruments, professional drum, bass, and synth plugins, along with plug-in-based effects, Apple Logic Pro X is designed to meet the needs of the professional audio and music technology enthusiast, or music school. Featuring a 64-bit audio engine, Logic Pro X is extremely fast and allows users to express themselves more creatively than ever before. Apple Logic Pro X includes advanced features and performance improvements for professional audio recording, editing, sequencing, mixing and mastering. Apple Logic Pro X is a complete digital music creation and performing solution for the Mac OS. Logic Pro X includes sophisticated audio and MIDI recording, edit, mix, master and publish features, along with complete audio and MIDI sequencing, song and MIDI arrangement, multi-track recording, audio and MIDI effects and recording automation. The two-channel, 24-bit/96k high-quality Logic Pro engine features higher sample rate, twice the amount of memory and twice the number of channels than its predecessor, the now discontinued Logic Express, and an enhanced user interface. Apple MIDI Sequencer is a music sequencer for the Macintosh computer. The user interface is similar to that of other sequencers but it has additional MIDI commands allowing it to be more than just a simple sequencer. Apple MIDI Sequencer is designed to support a wide variety of MIDI-enabled MIDI instruments, synthesizers, music software and hardware devices. Apple Sound Forge is a comprehensive, all-in-one f3e1b3768c
