License keys for the program are stored in a file and for that file size it should be less than 3.98 kb file size. In our database we are storing all the information that are needed to unlock all the iCloud accounts.Q: Reorder a HTML Table I am having a hard time trying to reorder the columns in a HTML table. Is there a simple way to do this? I am quite a newbie to JavaScript. A: var table = document.getElementById("yourtable"); var columnIds = ["col1", "col2"]; var sortedCols = columnIds.sort(); for(var i=0;i<Q: How do I know which gear my bike is in? I'd like to know when I'm at the top of a climb, or on a descent, but I'm not sure which gear is my best. I know how much I need to pedal, but the numbers on the side of my road bike are hard to read. When I want to know if I'm too low or too high, I just look at the rear wheel and how much it's bent back - if it's bent too much, I'm too high; if it's bent back just right, I'm fine. More complex is looking at cadence. Lower gears (the numbers are further apart) should be used when you're low on energy Higher gears (the numbers are closer together) should be used when you're nearing the end of your fuel You can use a
