SysTuner Light Crack + For Windows

SysTuner Light Crack is a special version of SysTuner, the powerful Windows tweaker. The Light version is designed to be

the world's smallest Windows tweaker with full plug-in support. It is also very simple, easy-to-use, smart and reliable. Although it doesn't reach the complete functionality of "big" SysTuner, it's powerful enough for many Windows users. By using this program, you will have hundreds of hidden Windows settings only several

clicks away. You will be able to customize almost any aspect of your Windows as an expert! So what's the difference between these versions? The first one is size: Light version has only about 64 kB (the full package) and the "big" one has about 600 kB (still very small). The second and the biggest difference is in functions which they offer:

Light version supports only plugins and has no built-in functions. "Big" version has more than 100 built-in functions, which are used when plug-in would not be able to do the same job. "Big" version also brings you several very useful modules, which may become very handy in many cases. Here are some key features of "SysTuner

Light": - plug-in support
allowing you to add new
functions in several minutes -
extremely fast and small (world's
smallest plug-in based Windows
tweaker) - easy to use plug-in
creation language - you don't
need to be a programmer to
understand it - simple and fine
user interface Version 4: Plug-in
support Autofreeze (System and

keyboard) Customization of
Windows Keyboard Extra
Dynamic File Explorer Auto-
Run Detach from Desktop
Autohotkeys Internet Explorer
Other significant features
