What's New In?

A sophisticated document copier that does its job in a clean and simple fashion. Handles every popular file format including BMP, EPS, GIF, JPG, JPEG, PDF, PNG, PSD, TIFF, WMF, and many more. Supports both 1 and 2-sided copying. Accelerates your work and saves you time. Copying Machine is the perfect solution if you frequently copy your documents. It is very easy to use. Simply place your desired document(s) in the folder and select the copying mode. All the rest is handled by the application automatically. You don't have to worry about your scanner or printer. Copying Machine takes care of that for you. It automatically detects and handles your scanner or printer and handles the copying process for you. You can copy multiple documents at once or process one document at a time. The result is perfect, no matter how complex your original document is. Accelerate your workflow by copying documents faster than ever. To work more efficiently, you should avoid the hassle of having to manually handle the drivers and the scanning process. It is frustrating to always have to search the right driver, and sometimes you may even end up with non-working devices, which in turn increases your workload. Copying Machine takes care of all this for you by automatically detecting your scanner or printer and making the process happen. Copying Machine is as easy to use as a smartphone. If you have to copy documents often, you may have to deal with all the hassle of handling the drivers and scanners. You might not even have a scanner at hand when it comes to the task at hand. You should not be burdened with the time consuming task of dealing with the drivers and the copying process. Now, you do not need to do all that, simply place your desired documents in the folder and select the copying mode. Everything is handled automatically by the application. You can copy multiple documents at once or process one document at a time. You can even process two or more documents at the same time. All done in a clean, simple, and efficient way. Multiple documents can be copied at once, even if they are of different size and orientation. What's New in Version 10.0.1.
