What's New in the Mywe Clipboard History?

Mywe Clipboard History is the perfect clipboard manager for

Windows. It allows you to expand and organize your clipboard history by displaying a list of past entries. After installation, you can use the application directly by creating a shortcut on the desktop or on the Start menu. The application displays the clipboard contents in an organized fashion, allowing you to access files and folders, text and paste the clipboard content right away.

While running, Mywe Clipboard History displays a colored strip at the top of the desktop. 19. Mywe Clipboard List 2.2 Mywe Clipboard List is an extension to Mywe Clipboard List that allows you to display the list of all clipboard entries on the desktop. As a free download, Mywe Clipboard List works with all versions of Mywe Clipboard List from 2.0 to 2.8, and supports

32/64-bit platforms. Mywe Clipboard List Description: Mywe Clipboard List is an easy to use and extremely fast clipboard management software that allows you to expand and organize your clipboard history. Available free of charge, the software allows you to display a list of items stored in the clipboard manager on your desktop. For each entry, the software displays its content in a

colorful strip that can be relocated to any corner of the desktop. Paste any of the entries in your favorites or text file Within a few seconds, you can paste any of the entries on your desktop by pressing the associated hotkey. A single mouse click of the mouse is enough to paste the desired entry, and it does not have to be placed at a specific location in order to get pasted. Mywe Clipboard List

supports multiple clipboard formats (text, file paths, HTML, Excel, JPEG, PNG, TIFF etc.). An additional icon is displayed at the beginning of the list, next to the entries, allowing you to save the selected entries in your favorite folder or create a new collection of them. The software supports the ability to import clipboard content from other clipboard managers and provides

an easy way to export data to other systems or applications. With the ability to save clipboard contents as favorites, you can easily access your stored data and paste it into the program of your choice. 20. Mywe Application Packager 1.2 Mywe Application Packager allows you to easily prepare applications (binaries) for distribution
